

# Pay It FORWARD

NRCA is actively involved with philanthropic work and it is one of the more popular associations to turn to for help because our member volunteers can provide a basic need—shelter. The Pay It Forward program was created by the Community Service Committee to match those in need with those in the roofing community who can help.

**A project in New Jersey was recently completed through the program. With the help of Pay It Forward volunteers, three special-needs sisters received the materials they needed to replace their roof system. The sisters now “have the best roof on the street” and are able to remain in the only home they’ve known.**

If you are willing to help someone in your community when the need arises, provide NRCA with your contact information so you can be included on the Pay It Forward list. Once your company is on the list, you will not be obligated to provide labor or materials but will receive project information when NRCA learns of someone in need in your area. In return for helping someone, you can ask them to help someone else in need.

To add your company name to the Pay It Forward list, please fax this form to fax to (847) 493-7971. For more information, contact Anne Schroeder, NRCA’s director of operations, at (847) 493-7547 or [aschroeder@nrca.net](mailto:aschroeder@nrca.net).
